

Origami Frog

1. Print out template. Use thicker paper to make a frog that jumps farther!

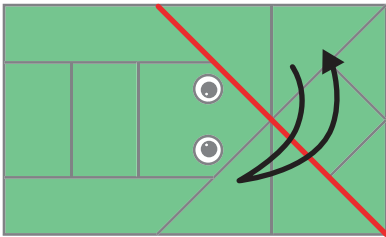

2. Cut out large green body rectangle.

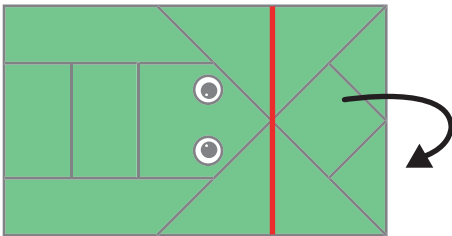

3. Fold and unfold on the red line as shown here.

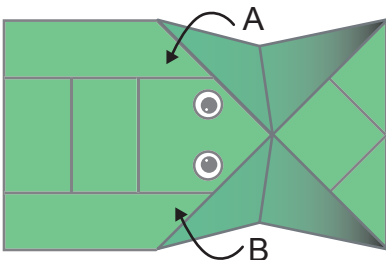

4. Fold and unfold on the red line as shown here.

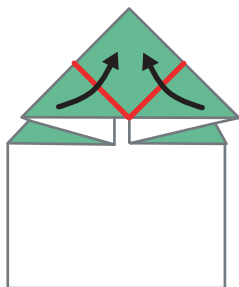

5. Fold back and unfold on the red line as shown here.

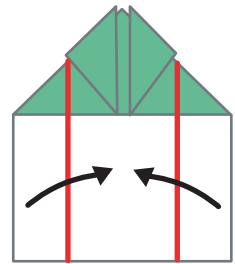

6. Collapse sides so that points A & B meet together in the middle. Turn over.

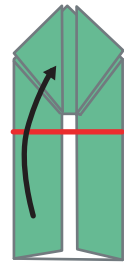

7. Fold outer corners of triangle to the top as shown.

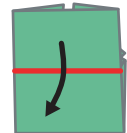

7. Fold the sides to the middle as shown.

8. Fold the bottom edge up to the top as shown.

9. Fold the top edge of the front layer to the bottom edge as shown.

10. That's it! Just turn your frog over and loosen his front and back legs to stand him up. To make him jump, just tap at his back. Once you've memorised the folds, you'll be able to make frogs out of all kinds of paper!
