(16.5cm X 6.5cm)

photo)

26 pieces of ribbon, each 20cm
long (various colours that co-
ordinate with the printed papers)
Various brads, stickers, buttons,
quotes and embellishments to
decorate.

Paper trimmer, liquid glue, photo
tabs, paint brush

Apply one coat of cream paint to each board. When it is dry, border each piece with chocolate paint - (I used my finger to give it an uneven finish but a paint brush is fine also). Using Epson picture mate, print 4 photos (2 to a page on 4 x 6 paper), trim to size (10cm X 7.5cm) then border each photo with cream paint, set aside to dry (again, I used my finger). Lay the project out and position all printed papers, photos and words in place. Add brads and eyelets to photos and papers before adhering to boards. Adhere everything in place and add any further embellishments. Join all boards together using 2 strands of ribbon through each hole, tying in 2 knots, (if you would prefer bows instead of knots, cut longer pieces of ribbon). Your wall hanging is now ready to hang.
